Choosing a stem cell transplantation center is one of the most important decisions you will make during your or your loved one’s treatment for cancer or another serious illness. With many programs to choose from, the task may seem overwhelming. Here is a list of questions to help you make sure the center you are considering is the best match for you.

We also invite you to learn more about our Adult Stem Cell Transplantation Program by visiting www.dfbwcc.org/SCTchoice.

### CENTER EXPERTISE

<table>
<thead>
<tr>
<th>Question</th>
<th>DF/BWCC</th>
</tr>
</thead>
<tbody>
<tr>

</table>

- How well will your insurance plan cover transplantation at this particular center?

- How well will your insurance plan cover any testing — including stem cell donor testing — you may need at this particular center, as well as required pre-transplant care, such as dental work?

- How well will your insurance plan cover any post-transplantation medications you may need and any other medical expenses you may incur at this center?

- Is the center able to collaborate with your local medical provider on your pre- and post-transplant care?

**AVAILABLE RESOURCES AND SUPPORT**

- What patient education materials, classes, and/or programs does the center offer?

- What emotional and psychological support services does the center provide?

- Will you have access to social workers, psychologists, and/or counselors at each stage of the transplant process?
