Hematologic Malignancies

New Patient Appointments

We make it easy for you to refer a new patient by phone, or via our Web site:

📞 By telephone, call 877-DFCI-BWH/877-332-4294. Please provide patient name, date of birth, contact information, and diagnosis.

🌐 Through our Web site, go to http://www.dana-farber.org/referrals; complete the form. A new patient coordinator may contact you, or the patient, for additional information.

Within 24 hours (excluding weekends and holidays), a new patient coordinator will call the patient to schedule an appointment with a DF/BWCC physician. After the appointment is scheduled, a letter will be mailed to the patient, as well as a list of what to bring (x-rays, bone/CT/MRI/Gallium/PET scans) to the first appointment.

We communicate with you throughout a patient’s treatment, including collaboration for follow-up care.

Medical Information Needed Prior to Patient Appointment

In order to best serve your patients at their initial visits, prior to the first appointment, please provide the following:

- Pathology/biopsy slides and blocks
- Pathology/biopsy reports
- Copy of medical record inclusive of physician’s notes
- Treatment notes
- Progress notes
- Lab results
- Pathology/radiology reports
- Flow cytometry results for the patient’s diagnosis

Send via overnight delivery to:
Path Processing-HEO
Dana-Farber Cancer Institute
450 Brookline Avenue
Boston, MA 02115

Fax to:
617-632-3730
Attention: New patient coordinator

Registration and Health Insurance Coverage

We will contact the patient prior to the first appointment to help manage registration and health insurance coverage information.

- Some health insurance plans require pre-authorization before a patient can be seen. As coverage varies among health insurers, patients should check with their insurance provider for any specific approval or authorization requirements.
- Financial counseling and support services for patients are available through our Access Management department at 617-632-3455.
