

Anu Chittenden MS, LGC

Manager, Genetic Counselors

Biography

Anu received her MS in Human Genetics from the University of Pittsburgh and MS in Genetic Counseling from Brandeis University. She joined Dana-Farber in 1996 and has worked in many different areas of genetic counseling here, including early family studies research on hereditary breast cancer, expanding services both within and outside of Dana-Farber, and promoting awareness of Lynch syndrome. She has a special interest in Lynch syndrome and gastrointestinal cancer genetics.
