

**Jaclyn Schienda ScM, LGC**

Senior Genetic Counselor

Biography

Jaclyn received her ScM in Genetic Counseling from Johns Hopkins University in a joint training program with the National Institutes of Health (NIH). She joined Dana-Farber in 2012 after working in the pediatric and adult genetics clinic at Tufts Medical Center. She has worked in many different areas of genetic counseling here and is currently the lead genetic counselor in the Pediatric Cancer Genetic Risk Program in the Jimmy Fund Clinic. Jaclyn is interested in communication of genetic risk and health information to children and families, as well as genetic causes of cancer in children.
