

International Referral Guidelines

Hematologic Malignancies, Stem Cell Transplant, and Cellular Therapies/CAR T-Cell Therapy

We welcome patients from all over the world who need advanced treatment and specialized expertise for hematologic malignancies. Our International Office is a central resource to help you and your patients access the services of Dana-Farber/Brigham and Women's Cancer Center (DF/BWCC).

Our International Office can:

- Provide interpreter services for a wide array of languages
- Arrange for the scheduling of appointments for consultation, diagnosis, and medical procedures
- Assist with transfer and review of medical records
- Coordinate financial and billing arrangements, including detailed estimates and consolidation of invoices from various care providers
- Assist with obtaining the necessary travel visas
- Help to arrange travel and lodging accommodations for patients and their families

All international patients are assigned an international patient navigator to assist with logistical and financial considerations related to becoming a patient and receiving treatment at DF/BWCC. Our staff strive to meet the cultural, dietary, and religious needs of patients of all backgrounds.

Contact our International Office at brighamandwomensintl@bwh.harvard.edu

For patients being referred for evaluation for **CAR T-cell therapy**, our nursing team works with patients and referring providers to:

- Review available diagnostic information and other medical and treatment history
- Discuss potential treatment options
- Provide guidance on next steps

Contact our new patient nurses and coordinators at dfciheoreferrals@dfci.harvard.edu

Our team collaborates closely with referring providers to keep them informed about their patients' care while at DF/BWCC. We are committed to providing patients with a smooth transition back to their local provider for ongoing care, while remaining available as a resource to providers and patients as needed.

About Dana-Farber/ Brigham and Women's Cancer Center

DF/BWCC provides the combined expertise of one of the world's leading cancer institutes and one of the world's leading hospitals to address the full spectrum of patient's needs. Both Dana-Farber and Brigham and Women's Hospital are teaching affiliates of Harvard Medical School.
