

Fatima Amir, MS, LGC

Genetic Counselor

Biography

Fatima received her MS in Medical Genetics from the University of Cincinnati and Cincinnati Children's Hospital Medical Center (UC/CCHMC) in 2018. She joined the Center for Cancer Genetics and Prevention at DFCI in 2018. She provides genetic counseling services to adult patients across a wide range of specialties. Fatima has a special interest in providing culturally competent care and in improving access to genetic counseling services among diverse groups. Fatima is also interested in community medicine and sees patients in the Dana-Farber Community Cancer Care Center at Whittier Street Health Center.
