Cancer Institute

**Sonia Butler BSN, RN**

Oncology Nurse Navigator, Gynecologic Oncology

**Biography**

Sonia has been an oncology nurse navigator in the Gynecologic Oncology Program since August 2019. Previously, she was a floor nurse at Brigham and Women's Hospital working with GYN post-operative surgical patients. Always wondering what would happen to her patients after being discharged from the hospital, Sonia found this role helped her continue to be a part of her patients' cancer care team, supporting them through every step of the way in their cancer care. Sonia received her bachelor's degree in nursing at Simmons College, now Simmons University, in Boston, MA in 2016.

**Background**

*Education*

Simmons College (Simmons University) | Bachelor of Science in Nursing | 2016
