

# Dana-Farber Cancer Institute

## **Brittany Hill, NP-BC, OCN**

Nurse Practitioner, Gynecologic Oncology

### **Biography**

Brittany joined the gynecologic oncology department in 2020, though her journey at Dana Farber began as an 18-year-old volunteer giving hand massages to patients as they received their chemotherapy infusions. It was within this role that Brittany found her passion and calling for oncology.

She graduated from Simmons University with Summa Cum Laude and Sigma Theta Tau academic honors for both undergraduate and graduate studies. She has worked as a registered nurse in inpatient bone marrow transplant and as an infusion nurse on Yawkey 10 for gynecologic, thoracic, neurologic, and head and neck cancers.

Upon completion of her nurse practitioner degree, she worked in the Breast Oncology Program and has since transitioned to the Gynecologic Oncology Program. She is currently completing her doctorate degree at Simmons University and focusing her research on improving patient-provider communication around sensitive topics.
