

**FELLOW:** Sara J. Khosrowjerdi, MD  
**HOMETOWN:** Wilbraham, MA  
**MEDICAL SCHOOL:** Tufts  
**RESIDENCY:** MGH

Sara is originally from Wilbraham, MA (home of Friendly's Ice Cream). She graduated summa cum laude from Tufts University, obtaining a BS in Biochemistry and BA in English. She earned her MD from Tufts University School of Medicine and completed her residency in Internal Medicine at Massachusetts General Hospital. Prior to medical school, she conducted research in the Kritzer Lab at Tufts University, synthesizing cyclic peptides to probe protein-protein interactions in the EGFR signaling pathway.

While at MGH, she has been conducting clinical research in GI Oncology with Ted Hong, investigating ARID1A mutations as a potential biomarker of response to platinum chemotherapy.

Sara is passionate about the care of patients with young-onset colorectal cancer and intends to become a clinical investigator focused on this population. She is also passionate about early cancer detection and improving hospital processes for cancer screening and monitoring of incidental radiographic findings.

Outside of work, Sara enjoys exploring new restaurants, baking (especially Joanne Chang recipes), meandering around the Charles River Esplanade, and discovering New England weekend getaways. She is getting married this fall and is seeking recommendations for honeymoon destinations!
