

**FELLOW:** Ian A. Roundtree, MD, PhD  
**HOMETOWN:** Dunstable, MA  
**MEDICAL SCHOOL:** The University of Chicago  
Pritzker School of Medicine  
**RESIDENCY:** MGH

Ian is originally from Dunstable, Massachusetts. He obtained his undergraduate degree in Chemistry at Boston College, where he conducted research in synthetic organic chemistry. He then moved to Chicago where he joined the Medical Scientist Training Program at the University of Chicago (PhD 2017, MD 2020). His doctoral research involved elucidating the role of reversible RNA modification in regulating gene expression. He completed his residency in Internal Medicine at the Massachusetts General Hospital as part of the Stanbury Physician Scientist Program.

Ian is passionate about understanding mechanisms of genetic regulation and discovering new ways in which these mechanisms contribute to health and disease.

Ian moved back to Massachusetts with his wife Sylvia after couples matching at Massachusetts General Hospital (he in Internal Medicine, she in Anesthesia). They live together in Boston with their cat Mew, and together enjoy food and wine, and traveling as much as possible.
